"I had the pleasure of working with Youssef at Apprentus as a colleague and I can definitely attest to what an amazing asset he is.

Youssef is an absolute pleasure to work with, and he brings his knowledge and expertise to the table in every project we work on. He has a great ability to communicate complex ideas in a straightforward manner and is a skilled problem solver. His knowledge and expertise in DevOps, security, and system engineering are invaluable to any team, and his enthusiasm and passion for his job were clear in his constant eagerness to help.

Above all, he is an amazing human being who was a joy to work with."

"Youssef is a raw talent.

Entrust him with any task: you will be satisfied with the result, but also with the manner and his approach. Beyond his technical abilities, his total involvement, and his countless efforts to solve all your problems, Youssef is an exceptional person.

A profile that one encounters only once in a professional lifetime.

His clarity, his understanding of the world, and his intelligence splash onto you."

" Professor at Leader University, I had the chance to supervise Youssef Douma during his graduation project. Throughout his project, Youssef was able to show seriousness, autonomy and application mainly on the Cloud and DevOps side.

The personal exchanges that I was able to have with him also allowed me to identify a serious professional project in him and in perfect harmony with his skills.

I hereby recommend him wholeheartedly. There is no doubt that his future managers will have the opportunity to discover for themselves to what extent Youssef will be a major asset for them and will confirm the reputation of excellence. "
